ABOUT FOOD LITERACY CENTER

What is food literacy?

Food Literacy is understanding the impact of our food choices on our health, environment, and economy – and understanding that these impacts are not experienced equitably.

We believe that being food literate empowers us to make informed choices. We provide food education in a way that's fun, approachable, and practical.

Why is food literacy so important?

Only 4% of kids are eating the recommended amount of fruits and veggies.

In Sacramento, 40% of kids suffer from childhood obesity or are overweight, putting them at increased risk for Type 2 diabetes. These diet-related diseases are preventable — if we eat our vegetables.

Food Literacy Center teaches cooking, nutrition, gardening, and active-play classes in Sacramento Title-1 schools where students are at highest risk for diet-related diseases. Most of them are food and nutrition insecure and are first exposed to fresh, healthy fruits and vegetables in their food literacy classes in school.

How does food literacy education move the needle?

Simply put, we inspire kids to eat their veggies!

We teach free cooking, nutrition, and gardening classes to 2,000 students across 23 Title-1 schools in two school districts: Sacramento City Unified and Robla.

We host free kids' farmers markets right before major school breaks. This gives students the opportunity to replicate what they've learned in class at home with their families, supporting not only the whole health of the student, but also supporting their families' health.

We bring a trauma-informed approach to food literacy education to promote resilience, joy, and wellness for Sacramento students and their families.

ABOUT SPRING KIDS FARMERS MARKET

KIDS SPRING FARMERS MARKET

MARCH & APRIL 2025

Sponsor one (or more!) of our annual Kids Farmers Markets, a feel-good way to support our mission to inspire kids to eat their veggies!

Our farmers markets are a celebration of the completion of our 10-week curriculum. The markets provide opportunities for kids to use 'Food Literacy Bucks' to shop for fresh fruits and vegetables, giving them the opportunity to choose their favorite produce, learn financial literacy skills, and practice what they've learned in class with their families at home.

These markets are scheduled right before major school breaks to ensure kids who are experiencing food and nutrition insecurity go home with fresh fruits and vegetables.
