# ABOUT FOOD LITERACY CENTER

## What is food literacy?

Food Literacy is understanding the impact of our food choices on our health, environment, and economy – and understanding that these impacts are not experienced equitably.

We believe that being food literate empowers us to make informed choices. We provide food education in a way that's fun, approachable, and practical.

## Why is food literacy so important?

**Only 4% of kids are eating the recommended amount of fruits and veggies.**

In Sacramento, 40% of kids suffer from childhood obesity or are overweight, putting them at increased risk for Type 2 diabetes. These diet-related diseases are preventable — if we eat our vegetables.

Food Literacy Center teaches cooking, nutrition, gardening, and active-play classes in Sacramento Title-1 schools where students are at highest risk for diet-related diseases. Most of them are food and nutrition insecure and are first exposed to fresh, healthy fruits and vegetables in their food literacy classes.

## How does food literacy education move the needle?

**Simply put, we inspire kids to eat their veggies!**

We teach free cooking, nutrition, and gardening classes to 2,000 students across 23 Title-1 schools in two school districts: Sacramento City Unified and Robla.

We host free kids' farmers markets right before major school breaks. This gives students the opportunity to replicate what they've learned in class at home with their families, supporting not only the whole health of the student, but also supporting their families' health.

We bring a trauma-informed approach to food literacy education to promote resiliency, joy, and wellness for Sacramento students and their families.

**Join the rhubarb revolution — become a sponsor!**

**Sponsors like you help us  
continue to expand our  
programs to reach more  
kids in Sacramento.**

We'll work with you to create a  
sponsorship package that fits your needs!
