About Food Literacy Center

Why food literacy is needed:

In Sacramento, 40% of kids suffer from childhood obesity, and 1 in 3 have type 2 diabetes. These diet-related diseases are preventable if we eat our vegetables. Yet only 4% of kids are eating the recommended amount of fruits and veggies.

We work in low-income schools where students are at highest risk for diet-related diseases. Most of them are food and nutrition insecure.

How we help kids:

- Serve Title 1 schools in the Sacramento City Unified School District, focusing on South Sacramento
- Free, online cooking and nutrition classes
- Inspire kids to eat their vegetables
- Fresh produce distribution to food and nutrition insecure students and their families
- Bring joy and trauma-informed food literacy teaching approach to promote resilience

Kids Holiday Cooking Kits

December 17, 2020

Event Overview

The Kids Holiday Cooking Kit event provides a colorful set of kid-friendly cooking tools paired with a recipe kit filled with fresh fruits and vegetables. The event is a drive-through style pick up due to COVID-19, but the goal is the same—set up our students to practice food literacy at home. We do our part to teach these kids healthy habits throughout the school year and want to help them practice healthy eating and cooking with their families. Your sponsorship supports critical mission-focused operations to reach our kids and families in need.
