

Veggie VOYAGERS

Dear School Administration and Expanded Learning Providers,

Food Literacy Center is a nonprofit organization whose mission is to inspire kids to eat their vegetables. We believe healthy food should be fun. We teach kids to love foods that are good for them and good for the planet. We also help kids develop healthy eating habits while they're young.

Food Literacy Center has openings for Saturday Family Field Trips to the Oak Park Farmers Market. In this one-of-a-kind experience, families will visit our local farmers market and explore the joy of healthy food. Families will have the opportunity to meet farmers, taste local produce, and eat veggie-forward recipes. They will also learn about market resources like our Market Match and CalFresh/EBT programs.

These field trips incorporate academic support, health and wellness, enrichment activities, and family engagement. Join us this summer!
